SUMMARY

I'm a full-stack web developer with expertise in the MERN stack, specializing in React, HTML, CSS, and JavaScript, with a strong emphasis on UI/UX design. Proficient in translating design concepts into visually appealing and user-friendly interfaces, I leverage tools like Figma and Adobe Illustrator for wireframes and prototypes. With a dynamic approach to creating innovative and user-centric designs, I excel in both front-end and back-end development, ensuring seamless integration and functionality. Eager to contribute my creativity and technical skills, I'm ready to elevate digital experiences through efficient and captivating web development.

EDUCATION

B.S.C, Computer Science

4.0/4.5 GPA

University of Hertfordshire, Hatfield, UK

Relevant coursework: Programming, Algorithms & Data Structures, Computer Systems Security, Operating Systems, Databases, Mobile Computing, Software Architecture, Robotics, Internet of Things, Responsible Computing
